

Language Acquisition through Motor Planning

Liberator is excited to host a LAMP workshop presented by Speech Pathologist / LAMP Certified Professional Peter Hockley (Hockley Speech Pathology). Peter will be joined by Liberator Speech Pathologist Benjamin Bond.

Melbourne

Thursday 6th & Friday 7th September 2018, 9am – 4pm
\$290 full price / \$240 parents & carers (includes lunch)
Eastern Ranges School, 56 Dorset Rd, Ferntree Gully, VIC

What is LAMP?

Language Acquisition through Motor Planning (LAMP) is a therapeutic approach based on neurological and motor learning principles. The goal is to provide individuals a method of independently and spontaneously expressing themselves in any setting. The LAMP approach can be used with both Unity® & Words for Life.

Who can attend?

This event is appropriate for anyone who is interested in learning more about LAMP, or who may already be using the LAMP approach. Attendees may be parents, carers, therapists, educators, education support, university students, and anyone with an interest in intervention with AAC.

Why attend?

- You will learn to confidently deliver AAC therapy using an evidence-based approach.
- You will be given tools to assess, manage and support your AAC clients.
- You will become fully equipped to use and implement LAMP Words for Life and Unity vocabularies.
- You will have the chance to win your own copy of the LAMP Words for Life and WordToob app.

Day 1: Introduction to the LAMP Approach

Led by Peter Hockley

- LAMP Theory and evidence base
- The five components of LAMP (readiness to learn, natural consequences, auditory signals, consistent & unique motor patterns, shared focus)
- Practical application in schools and therapy

Day 2: Implementation: Unity® & Words for Life™

Led by Benjamin Bond

- Foundations of Unity® & Words for Life™
- Understanding and navigating the language systems
- Tools for implementation
- Assessment, ongoing data collection & evaluation
