Explore Chat Editor: Saltillo's Companion Software

WHAT IS IT? HOW DO I GET IT? WHAT CAN I DO WITH IT?

A FREE companion program for the NOVA chat, Chat Fusion & Liberator Rugged 7, compatible with Windows. Download it from the CD/USB included with the device or online at: http://saltillo.com/products#chat-editor
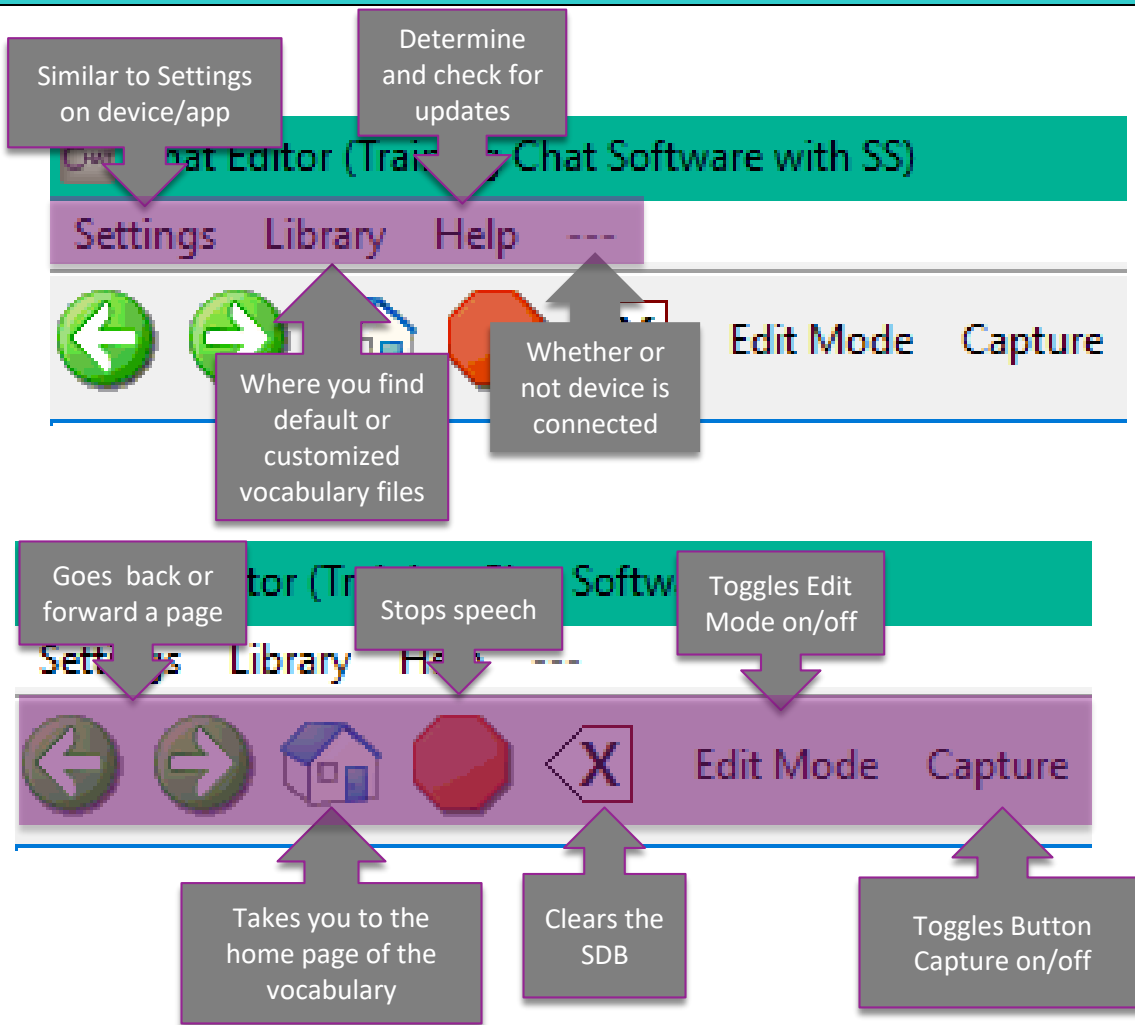

What can I do with it? Why do I want it?

Customize   **Transfer**   **Interact**   **Create**

SETTING UP FOR THE FIRST TIME

1. Select 'Create a New Configuration'

2. Select a configuration:
NOVA chat/Chat Fusion *for WordPower, Multichat etc*
Words for Live (NOVA Edition) *for LAMP Words for Life*

3. Select English

4. If prompted, select your preferred symbol set

5. Enter a Name (e.g. "LAMP Words for Life")

6. Select OK. Program will open into new Configuration

You do not need to set up a new configuration every time you connect a new device; however, you will need to switch between a 'Chat' configuration and a 'LAMP Words for Life' configuration if you want to change between these vocabulary options.

HOW DO I…

Determine the **software version** of my Chat Editor	• Select **Help** > **About** • Note: If you have an internet connection you can "check online for new version"
Determine the **software version** of **NOVA chat or Chat Fusion**	• Select menu 🗖 ☰ ⋮ • Select **Help** > **About**
Edit on Chat Editor	• You must be in a copy in order to edit. You cannot edit original files. • Select the "Edit Mode" button. • Right click on your mouse to bring up the editing menu.

Customize a Button	• Enter **Edit Mode**
	• Right click on button to modify > Select **Edit Button**
	• Modify:
	  ▪ Label: words on the button
	  ▪ Message: words spoken
	• Image: picture on the button

Import Pictures directly to a button	• Enter **Edit Mode**, Right click on button to edit > Select **Edit Button**. • Under "Image" select "Import" • Locate and select desired picture on your computer. • Select OK

Use the **Next Tool**	• Right click on button to be edited • Select **Edit Button** > make desired changes • Select NEXT to edit the next button in the row.
Highlight or change the border color of a button	• Enter **Edit Mode**, Right click on button to edit > Select **Edit Button**. • Select "Style" tab • Select "Border" > make desired changes to color • Increase Border width from the drop down menu. • When you finish making changes, choose **Save**.
Hide or show multiple buttons at once	• Enter **Edit Mode** > select **Hide Mode** You have three options: ▪ Choose buttons one by one to hide or show ▪ Choose **Hide All** to hide all buttons on the current page. ▪ Choose **Show All** to show all buttons that had previously been hidden. Note: You must hide each page at a time. To exit Hide Mode, click on **Hide Mode** again**.**
Transfer/**Back up** files to/from **NOVA chat** or **Chat Fusion**	• Attach device to computer via USB cable • On Chat Editor: **Library** > **Transfer** > **Vocabs to/from Device** • Select desired file and desired destination (e.g., To Editor or To Device) > **DONE**. • Files are added to "My Resources"
Duplicate a file on Chat Editor	• In Chat Editor, select **Library** > and locate the file you want to copy. Depending on your configuration you may have to open a language (e.g., English), a symbol set (e.g., SymbolStix, PCS), or a vocabulary suite (e.g., WordPower). • Click on desired file > **Duplicate** • Enter a New Name (e.g., WordPower 60_Dave) • File is added to "My Resources"
Email a customized File	• Open previous editor > **Library** > **Transfer** > **Vocabs to File** • Select file > Save to Desktop • Compose email and attach file • Person receiving downloads/saves file in their Chat Editor folder.
Print Pages	• In Chat Editor Select **Settings** > **Print Pages** • Select the pages you want to print. • Click on "Print Selected Pages"
Capture Sequences	• In Chat Editor Select **Capture** • Select the desired button sequences. These will appear in a window below. • Select "Copy to Clipboard." You can paste where desired.

DEVICE AND EDITOR DIFFERENCES

➢ Voice output is only activated on Editor once a device is connected
➢ Vocabulary Builder cannot be used on Chat Editor
➢ Settings do not transfer from Chat Editor to NC
➢ Word Finder is not available on Chat Editor
