

## INTEREST INVENTORY

Motivation is an important aspect of communication intervention. It is helpful to gather information about our client's interests, motivations and favourite activities. This information will be used to plan intervention and enhance engagement and interaction. Please feel free to add additional items in the blank boxes. This form has been updated from the LAMP™: Language Acquisition through Motor Planning manual, in order to add in popular local interests/ toys from Australia.

	Very motivating	Some interest	No interest	Aversive	Don't know/ never tried
