App Partner Program
Terms & Conditions

1. Purpose of the program

The Liberator App Partner Program is a **professional learning initiative** designed to support individual clinicians to build their skills and confidence using AAC apps.
As part of this training program, eligible participants may receive **one complimentary app upgrade** in recognition of completion of the relevant training.

2. Eligibility

The App Partner Program is available to **qualified speech pathologists** who are conducting AAC assessments, trials, or intervention as part of their professional practice.

3. Partner codes and ownership

- Partner codes are issued to **individual clinicians**, not to businesses, organisations, workplaces or employers.
- Ownership of the codes is strictly linked to the individual clinician and will be linked to the individual clinician's PRC account
- Partner codes **cannot be shared, transferred, sold, or gifted** to another person or organisation.
- Each eligible clinician is entitled to **one (1) app upgrade code per applicable App Partner Program training** and can request this code at the completion of training.

4. Use of the app

Apps accessed via the App Partner Program are for **professional use only**, including therapy, assessment, trials, and modelling with clients.

Upgrade codes are not available for allied health student use, personal use, or direct client access outside of professional service delivery.

5. Upgrade code limits

- App Partner Program codes are **upgrade codes**, not full purchase licences.
- Each upgrade code can be used **up to three (3) times in total**.

This includes situations where the app is uninstalled and reinstalled on the same device.

We recommend saving repeat uses for situations such as:
- reinstalling the app
- replacing a device
- unexpected loss of access.

Once the three-use limit is reached, additional codes may not be issued except in exceptional circumstances. Please reach out to our support team with any questions regarding the code limit at training@liberator.net.au

6. Devices and business use

The App Partner Program is **not designed for businesses or organisations** seeking app access across multiple staff or devices.

Organisations that require apps across multiple devices can purchase a full app licence, which allows installation on multiple devices under standard licensing terms. Businesses are welcome to encourage individual staff members to complete the training and apply for their **own** partner code.

7. App account and email address

To ensure continued access:
- we strongly recommend creating your PRC-Saltillo account using a **personal email address**, rather than a workplace email
- this helps ensure your access remains with you if you change roles or employers

8. Program management

Liberator may:
- review eligibility at any time
- update program conditions
- withdraw partner access where these terms are not met
